Forgiving Is Beautiful

What does forgiveness mean?

Three important things should be noted about forgiveness:

1. Forgiveness is a process that occurs in a person.
2. Forgiveness is a decision that comes from the heart for freeing someone from prolonged suffering.
3. Forgiveness should be applied in all situations.

Forgiveness is NOT forgetting.

Forgiveness is the willingness to say that the painful thing is no longer disturbing.

Only forgiveness can heal the wounds of the heart. Accepting the experience of pain and smile to embrace the beautiful future is the state of forgiveness.

Forgiveness is beautiful.

Do it so you may live free and reborn.

Hope it's useful
